UX design, wireframes and web design

Client: Homearound

Desktop and mobile experience design

The wireframe and UI design process for the Homearound website involved several stages:

- Search Results:** Initial wireframe showing a map and search filters. Final design includes a sidebar with destination icons and a detailed search interface.
- Property Detail:** Initial wireframe showing basic property info. Final design includes sections for Overview, Services, Local guide, and Highlights, along with a large map and reviews.
- Special Offers:** Initial wireframe showing a world map and offer categories. Final design includes a clean layout with offer details and a sidebar for service types.
- Review Section:** Initial wireframe showing a list of reviews. Final design includes a clean layout with user photos and a "Sign Up" button.
- Owner Landing:** Initial wireframe showing a list of services. Final design includes a sidebar with service icons and a "Sign Up" button.

The final desktop version of the Homearound website is a polished, responsive design. Key features include:

- Header:** Includes the Homearound logo, navigation links for JOINT VENTURE, ABOUT US, and CONTACT, and a search bar.
- Banner:** Features five destination images with "EXTRA" and "DETAILED" callouts.
- Content Sections:** Includes "FEATURED PROPERTIES" (a slider showing four apartments) and "SELECTED DESTINATIONS" (thumbnails for Barcelona, Bali, and Lake Maggiore).
- Footer:** Contains a newsletter sign-up form, social media links, and legal information.

ASTUANAX

UI design, HTML prototyping and styleguide

Client: Informat

Design documentation for developers

The screenshot shows a web-based application for managing activities. At the top, there's a header with the Informat logo, a search bar, and user navigation. On the right, a sidebar lists several modules: iPersonnel (with a person icon), iBasis (with a sun icon), iRekeningen (with a graph icon), and iGebruikers (with a user group icon). The main content area is titled 'Activiteiten beheren' (Manage Activities). It features a table with columns for 'Code' and 'Omschrijving'. The table contains 10 items, each with a checkbox, a code value (e.g., 1, 2, 3, 4, 5, 6, 7, 8, 9), and a description. Item 5 has a small edit icon next to it. Below the table are pagination controls for 'Per page' (10) and 'of 1'.

This screenshot shows the 'Nieuwe activiteit' (New Activity) creation form. At the top, there are tabs for 'Nieuwe activiteit' (selected) and 'Groepen'. On the right, there are buttons for 'Annuleren' (Cancel) and a prominent green 'Opslaan' (Save) button. The form fields include 'Code' (with a red error message placeholder 'Foto'), 'Omschrijving' (description, containing 'Lorem ipsum'), 'Ingave voor' (due date, '10:00 AM'), and 'Afwezigen' (absenteeism status, dropdown 'Afhankelijk'). To the right of the form is a placeholder for a photo with the text 'Kies een icoon' (Select an icon). Below the form is another table with columns 'Groep' and 'Beschikbaarheid'. This table also contains 10 items, mostly with 'ABC' in the 'Groep' column and various descriptions in the 'Beschikbaarheid' column. At the bottom, there are pagination controls for 'Per page' (10) and 'of 1'.

Wireframes, Web design and logo design

Client: Asti

Identity and web design.

This wireframe shows the layout of the Asti website homepage. It features:

- An image slider at the top.
- A "Make a Donation" button.
- A "News & Events" section with several news items.
- A "New to Luxembourg" section with categories: ASILE, MIGRATION, ACTIVITIES, WORK, SERVICES, and ACTIVITIES.
- A "Get involved" section with links to DONATE, VOLUNTEER, NEWSLETTER, and MEMBER.
- A footer with social media icons and a newsletter sign-up form.

This image shows the final design of the Asti website homepage. It includes:

- A large banner image of people sleeping.
- A "About ASTI" section with a bio and a photo.
- A "NEWS AND EVENT" section with news items and a "Read More" link.
- A "New to Luxembourg" section with categories: ASILE, MIGRATION, ACTIVITIES, WORK, SERVICES, and ACTIVITIES.
- A "Get involved" section with links to DONATE, VOLUNTEER, NEWSLETTER, and MEMBER.
- A "Partner service" section with logos for various organizations.
- A footer with social media icons and a newsletter sign-up form.
